

The miracle of the loaves and fish activity.

Use small squares cut from tissue or construction paper to cover the fish and cross shapes to make their own mosaic picture. Below is a picture of the Byzantine mosaic of the loaves and fishes found Tabgha where the miracle is said to have taken place.

Mosaics preserved from the Byzantine period at the Church of the Multiplication of the Loaves and the Fishes at Tabgha, on the Sea of Galilee. (Rishwanth Jayapaul/FLASH90)
