

Precious Blood Parish
Rodgers Infinity 361-II Organ

The organ selected for the parish is a Rodgers Infinity 361-II. The three manual instrument's large stop list is enhanced by many more pipe samples 'hidden' in Rodgers Library and Voice Palette. This provides the versatility to play any style of organ literature. Beyond the scope of traditional pipe organ sounds, Rodgers has included many orchestral voices. These bring a fresh sound to the organ that is enjoyed by young and old alike.

Rodgers Organs, located in Hillsboro Oregon, is part of the international Global Organ Group. They are represented locally by Classic Organs of Indiana whose owner, Tom Magee, oversaw the installation of our organ. Some of his other local installations include Holy Family, Saint Mary's/Ireland and Saint Benedict Cathedral. You may learn more about them by visiting www.classicorgans.net.
